

STRONG. STABLE. UNSTOPPABLE.

A NEW WORLD DEMANDS NEW HOLLAND.

The heavy-duty C234 radial-lift compact track loader doesn't merely handle tough conditions and demanding terrain, it conquers them. Built to last and packed with the power of a 90-hp turbocharged engine, the C234 stands up to the continual use and punishing conditions of construction sites and rental yards.

- Ready for grueling applications with 3,400-lb rated operating capacity @ 50% tipping load, 8,700-lb bucket tip force and 7,760-lb lift breakout force
- Superior digging and grading efficiency due to the radial lift design
- Smooth, stable ride and low 4.4-psi ground pressure thanks to the long 64.5-in. track base and low center of gravity
- Superior visibility and comfort and one of the widest cabs in the industry
